**Photo Editor and Cover Design**

Mr. Mark Causapin

Dr. Robert Taylor was selected by the Teachers College sponsored Teachers for East Africa program to teach mathematics of Uganda's Makerere University. He returned to TC as an instructor in the Department of Mathematics, Statistics, and Computing in Education where he developed an innovative programming language (FPL) intended to introduce educators to the then-new field of computer programming. His seminal work entitled *Computers: Tutor, Tool, Tutee* led to leadership in the new field of computers in education. Dr. Taylor completed 33 years as a member of the Teachers College faculty in 2009.

Dr. Carl N. Shuster completed the doctorate at Teachers College in 1940 under the guidance of William David Reeve. Shuster joined the TC faculty at Reeve's invitation and soon was recognized as the nation's leading advocate of the use of traditional technology, especially measurement technology, in the mathematics classroom. Dr. Shuster served as President of the National Council of Mathematics from 1946 to 1948 and concluded his career as Distinguished Professor of Mathematics at Trenton State University.

**Aims and Scope**

The *JMETC* is a re-creation of an earlier publication by the Teachers College Columbia University Program in Mathematics. As a peer-reviewed, semi-annual journal, it is intended to provide dissemination opportunities for writers of practice-based or research contributions to the general field of mathematics education. Each issue of the *JMETC* will focus upon an educational theme. The themes planned for the 2012 Spring-Summer and 2012 Fall-Winter issues are: *Evaluation* and *Equity*, respectively.

*JMETC* readers are educators from pre K-12 through college and university levels, and from many different disciplines and job positions—teachers, principals, superintendents, professors of education, and other leaders in education. Articles to appear in the *JMETC* include research reports, commentaries on practice, historical analyses and responses to issues and recommendations of professional interest.

**Manuscript Submission**

*JMETC* seeks conversational manuscripts (2,500-3,000 words in length) that are insightful and helpful to mathematics educators. Articles should contain fresh information, possibly research-based, that gives practical guidance readers can use to improve practice. Examples from classroom experience are encouraged. Articles must not have been accepted for publication elsewhere. To keep the submission and review process as efficient as possible, all manuscripts may be submitted electronically at [www.tc.edu/jmetc](http://www.tc.edu/jmetc).

**Abstract and keywords.** All manuscripts must include an abstract with keywords. Abstracts describing the essence of the manuscript should not exceed 150 words. Authors should select key words from the menu on the manuscript submission system so that readers can search for the article after it is published. All inquiries and materials should be submitted to Ms. Krystle Hecker at P.O. Box 210, Teachers College Columbia University, 525 W. 120<sup>th</sup> St., New York, NY 10027 or at [JMETS@tc.columbia.edu](mailto:JMETS@tc.columbia.edu)

**Copyrights and Permissions**

Those who wish to reuse material copyrighted by the *JMETC* must secure written permission from the editors to reproduce a journal article in full or in texts of more than 500 words. The *JMETC* normally will grant permission contingent on permission of the author and inclusion of the *JMETC* copyright notice on the first page of reproduced material. Access services may use unedited abstracts without the permission of the *JMETC* or the author. Address requests for reprint permissions to: Ms. Krystle Hecker, P.O. Box 210, Teachers College Columbia University, 525 W. 120<sup>th</sup> St., New York, NY 10027.

# TABLE OF CONTENTS

## Foreword

- v **Honoring the Past—Anticipating the Future**  
*J. Philip Smith, Bruce R. Vogeli, Erica Walker*

## Preface

- vi **From Slide Rules to Video Games: Technology in Mathematics Classrooms**  
*Diane R. Murray*

## Articles

- 1 **Mathematical Visualization**  
*Jonathan Rogness, University of Minnesota*
- 8 **Randomized Control Trials on the Dynamic Geometry Approach**  
*Zhonghong Jiang, Alexander White, Alana Rosenwasser  
Texas State University – San Marcos*
- 18 **The Frame Game**  
*Michael Todd Edwards, Dana C. Cox  
Miami University at Oxford, Ohio*
- 28 **Preserving Precious Instruments in Mathematics History: The Educational Museum of Teachers College and David Eugene Smith’s Collection**  
*Diane R. Murray, Teachers College Columbia University*
- 33 **Tech@MoMath: Technology Use in the Forthcoming Museum of Mathematics**  
*Heather Gould, Teachers College Columbia University  
Catherine Reimer, The School at Columbia*
- 37 **The Mathematics of Global Change**  
*Kurt Kreith, University of California at Davis*
- 45 **Toward an Analysis of Video Games for Mathematics Education**  
*Kathleen Offenholley, Borough of Manhattan Community College*
- 49 **Current Challenges in Integrating Educational Technology into Elementary and Middle School Mathematics Education**  
*Sandra Y. Okita, Azadeh Jamalian  
Teachers College Columbia University*

## TABLE OF CONTENTS, continued

- 59**    **Math Is Not a Spectator Sport: The Effect of Online Homework-Completion Tutoring On Community College Remedial Mathematics Performance**  
*Alice W. Cunningham, Olen Dias, Nieves Angulo*  
*Hostos Community College, City University of New York*
- 66**    **Integrating External Software into SMART Board™ Calculus Lessons**  
*Allen Wolmer, Yeshiva Atlanta High School*  
*Leonid Khazanov, Borough of Manhattan Community College*
- 73**    **Something Drawn, Something Touched, Something Scrolled: An Exploratory Comparison of Perimeter and Area Interventions Including Kidspiration**  
*Dino Sossi, Azadeh Jamalian, Shenetta Richardson*  
*Teachers College Columbia University*
- 78**    **NOTES FROM THE COMPUTER LABORATORY**
- Insights of Digital Mathematics Textbooks**  
*Hoyun Cho, Mercy College*
- Basic Triangle Properties Through Geometer's Sketchpad**  
*Nasriah Morrison, Teachers College, MA Candidate*
- Discovering Blackbeard's Treasure by SMART Board™**  
*Emily Ying Liao, Uncommon Charter High School*
- Programming Probability**  
*Paul Morrill, New Design Middle School*
- GeoGebra in the Geometry Classroom**  
*Christina Constantinou, High School East, Half Hollows Hills Central School District*

**MATHEMATICS EDUCATION  
FACULTY VACANCY**

Teachers College invites applicants for a faculty position in mathematics education. A successful candidate will have an earned doctorate in mathematics or mathematics education at the time of appointment and a demonstrated ability to pursue an active research agenda in a significant area of mathematics education. Applicants should be qualified to teach graduate-level courses in at least two areas of mathematics and in two or more areas of mathematics education. Preference will be given to candidates with prior experience teaching school mathematics. All candidates are expected to demonstrate an ability to establish a research program and a potential to obtain external funding. Candidates also are expected to establish a record of continuous, scholarly productivity and a record of leadership. Minority candidates are strongly encouraged to apply.

**Rank:** Assistant Professor, Tenure Track

**Send** CV, a cover letter explaining your interest in the position, representative publications, and three names of reference to Professor Erica Walker, Search Committee Chair, by email at [tcmath@tc.edu](mailto:tcmath@tc.edu) or by mail at Teachers College Columbia University, 525 West 120th Street, Box 195, New York, NY 10027.

Review of applications will begin by December 1, 2011 and continue until the search is completed. Appointment begins September 2012.

*Teachers College as an institution is committed to a policy of equal opportunity in employment. In offering education, psychology, and health studies, the College is committed to providing expanding employment opportunities to persons of color, women, and persons with disabilities in its own activities and in society.*

## *Journal of Mathematics Education at Teachers College*

### **Call for Papers**

The “theme” of the fall issue of the *Journal of Mathematics Education at Teachers College* will be *Evaluation*. This “call for papers” is an invitation to mathematics education professionals, especially Teachers College students, alumni and friends, to submit articles of approximately 2500-3000 words describing research, experiments, projects, innovations, or practices related to evaluation in mathematics education. Articles should be submitted to Ms. Krystle Hecker at [JMETC@tc.columbia.edu](mailto:JMETC@tc.columbia.edu) by January 21, 2012. The spring issue’s guest editor, Ms. Heather Gould, will send contributed articles to editorial panels for “blind review.” Reviews will be completed by February 1, 2012, and final drafts of selected papers are to be submitted by March 1, 2012. Publication is expected by April 15, 2012.

### **Call for Volunteers**

This *Call for Volunteers* is an invitation to mathematics educators with experience in reading/writing professional papers to join the editorial/review panels for the spring 2012 and subsequent issues of *JMETC*. Reviewers are expected to complete assigned reviews no later than 3 weeks from receipt of the manuscripts in order to expedite the publication process. Reviewers are responsible for editorial suggestions, fact and citations review, and identification of similar works that may be helpful to contributors whose submissions seem appropriate for publication. Neither authors’ nor reviewers’ names and affiliations will be shared; however, editors’/reviewers’ comments may be sent to contributors of manuscripts to guide further submissions without identifying the editor/reviewer.

If you wish to be considered for review assignments, please request a *Reviewer Information Form*. Return the completed form to Ms. Krystle Hecker at [hecker@tc.edu](mailto:hecker@tc.edu) or Teachers College Columbia University, 525 W 120th St., Box 210, New York, NY 10027.

### **Looking Ahead**

Anticipated themes for future issues are:

Spring 2012	Evaluation
Fall 2012	Equity
Spring 2013	Leadership
Fall 2013	Modeling
Spring 2014	Teaching Aids

### **TO OBTAIN COPIES OF *JMETC***

To obtain additional copies of *JMETC*, please visit the *Journal’s* website [www.tc.edu/jmetc](http://www.tc.edu/jmetc). The cost per copy delivered nationally by first class mail is \$5.00. Payment should be sent by check to *JMETC*, Teachers College Columbia University, 525 W 120th St., Box 210, New York, NY 10027.

Permission to make digital or hard copies of all or part of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation on the first page. Copyrights for components of this work owned by other than The Program in Mathematics and Education must be honored. Abstracting with credit is permitted. To copy, to republish, to post on servers for commercial use, or to redistribute to lists requires prior specific permission.
